## AUSTRIANS FLEE IN ROUT FROM VICTORIOUS ITALIANS

### AMERICAN TROOPS PASSING THROUGH TO THE FRONT

AMERICAN TROOPS PASSING THROUGH TO THE FRONT. (By Associated Press Cable.)

VICTORY OF ITALIANS OVER AUSTRIANS ON PIAVE RIVER ASSUMES PROPORTIONS OF VERITABLE TRIUMPH AND A DISASTER OF GREAT MAGNITUDE FOR ENEMY WHEN NEWS OF DEFEAT FINALLY REACHES THE STARVING AUSTRIAN PEOPLE. INTERNAL DISORDERS AND REVOLTS ALMOST CERTAIN TO FOLLOW. WILL DETERMINE THE MAGNITUDE OF BLOW.

GERMANS BEATEN OFF WITH HEAVY LOSSES IN ALL ATTACKS ON FRENCH LINES. HUNS SHOW NO INTENTION OF TAKING UP FORWARD MOVEMENT.

(By Associated Press)

Italy's victory over the Austrians on the Piave river appears likely to assume the proportions of a veritable triumph for the Italians and a disaster of great magnitude for the defeated enemy.

Disaster seems to be written large in the news of the Austrian defeat along the Piave.

Unable to force his way further than the immediate vicinity of the west bank of the river and with bridges thrown across the stream swept away by the swirling waters of the flood, pouring down from the mountains, the enemy began a precipitate retreat Saturday night. So hasty was his withdrawal that he left a great many cannon on the west bank of the Piave while his retreating infantry columns are already being pressed by the Italian detachments thrown over to the easterly side of the stream.

From the Montello plateau to southward to the Adriatic comes the same story of the Austrian retreat. The Piave river formerly emptied into the sea quite near Venice, but in recent years its course was changed to its present location. In the first rush of the Austrian offensive the enemy succeeded in crossing the old river bed, which now is a canal. From these positions the foe has been driven and the Italians are relentlessly pressing the pursuit.

### "HUNGER OFFENSIVE" FORLORN HOPE

There is every indication that the Austrian "hunger offensive" has been a forlorn hope for days. The effect of the defeat on the internal conditions of Austria-Hungary when once the news is made public, can only be conjectured, but it may be said the Italians have dealt the enemy a harder blow than merely that of the military feat of pushing him back across the Piave.

The French, on the Marne-Rheims sector repulsed a heavy German attack on the heights of Bligny, west of the city of Rheims last night.

A German attack on the French at Antheuil west of the Oise was beaten off on Sunday night. British troops have taken prisoners and inflicted casualties in local operations along their sector of the front in France.

The Germans show no intention of again taking up a forward movement but the next effort like previous ones probably will begin unheralded except by several hours of intense bombardment.

### MANY PRISONERS, ENORMOUS STORES TAKEN

Washington, June 24.—(By Associated Press)—Capture of 45,000 prisoners and enormous stores of war materials by the Italians in their counter offensive which has driven the Austrians across the Piave river is announced in an official cablegram received today by the Italian embassy from Rome.

"Offensive operations by our troops began Sunday," the dispatch says. "After violent artillery preparation that destroyed all bridges except one, the infantry drove forward. The flooded Piave river contains thousands of enemy corpses."

### GIVES HER HOME

MRS. FREDERICK E. GUEST

Mrs. Frederick E. Guest, wife of Captain Guest, Member of Parliament has turned over to the American Red Cross her London residence in Park Lane, known as Alford House. The house will be used as a hospital for the American Navy. Mrs. Guest formerly was Amy Phipps, daughter of Henry Phipps, of Pittsburgh, Pa.

### GIVE QUOTAS OF COLORED TROOPS CALL

Fayette County to Furnish 9 Colored Men In Call for 1000

Skilled Workers Called In List

(By Associated Press Dispatch.)

Columbus, O., June 24.—State draft headquarters today announced local draft quotas of the 1,000 colored men to be sent to Camp Sherman the five days beginning July 15th; also the 103 mechanics to be sent to Toledo University July 15th and the 360 carpenters and sheet metal workers to be sent to Cincinnati university July 15th.

Fayette will send 3 to Cincinnati and 6 negroes to camp Sherman.

### EXPECTING ANOTHER HUN DRIVE

(By Associated Press Dispatch.)

Washington, June 24.—Though cheered by the news that the Italians are pursuing the defeated Austrian army across the Piave officials and military observers here are prepared to hear at any time of a stiffening of the enemy line and of the launching of another offensive move supported by Germans withdrawn from France. Some officials suggested today that the absence of any activity along the front in France during the past few days might be accounted for by the movement of German reinforcements toward Italy.

### ENGINEER ASLEEP AT THROTTLE

Cause of Circus Train Wreck Is Announced

(By Associated Press Dispatch.)

Hammond, Indiana, June 24.—Attorney Chas. J. McFadden, representing the Michigan Central Railroad, issued a statement today explaining that Engineer A. J. Sargent, of the empty troop train which crashed into a circus train near Gary, Saturday, was asleep owing to illness and did not see the danger signals.

Sargent, he said, remained near the wreck six hours and then being worn out went to Kalamazoo, Michigan.

At the coroner's inquest today McFadden said the engineer was asleep for three miles.

Sixty-two bodies have been recovered and it is thought 23 are still missing.

RELEASED ON BAIL.

(By Associated Press Dispatch.)

Kalamazoo, Mich., June 24.—A. J. Sargent, engineer of the train which crashed into the Hagenback-Wallace circus train near Gary, Indiana, Saturday, was released today on bail.

Later it was announced he would waive extradition and attend the coroner's inquest at Hammond tomorrow.

McADOO ACTS.

(By Associated Press Dispatch.)

Washington, June 24.—Director General McAdoo today ordered an investigation of the circus train wreck on the Michigan Central near Gary, Indiana.

INJURED LEAVE GARY.

(By Associated Press Dispatch.)

Gary, Ind., June 24.—Thirty-six of the injured in the Hagenback-Wallace circus wreck near here Saturday were able to leave the hospital today. Thirty-six remain in the hospitals.

### SINKS EMPTY TROOP SHIP CREW SAVED

(By Associated Press Dispatch.)

Washington, June 24.—Sinking of an allied transport under American charter on June 18th, about 700 miles east of the Delaware Capes, was reported today to the Navy Department.

The vessel had no troops aboard and was westward bound. The U-boat appeared on the surface during its attack and fired 19 shots into the ship.

Three boats with about 67 members of the crew are missing and are believed lost. The remainder of the crew of 148 men have been landed at Atlantic ports in seven boats.

\$2,500,000,000

(By Associated Press Dispatch.)

Washington, June 24.—The sundry civil appropriation bill carrying about \$2,500,000,000 was passed today by the Senate. It now goes to conference.

### VIENNESE DEMANDING NEGOTIATION FOR PEACE

Striking Factory workers Call for General Conference

(By Associated Press Cable)

London, June 24.—Strikers in the various factories at Vienna on Saturday, formulated a demand that the Austrian government show itself ready for a general peace and invite the governments of enemy countries to enter into peace negotiations, says a dispatch from The Hague.

Representatives of the workers submitted the plea to Baron Burian, the Austro-Hungarian Foreign Minister.

### CASUALTY LIST OF THE ARMY

(By Associated Press Dispatch.)

Washington, June 24.—The army casualty list today contained 62 names. Eight were killed in action and 45 wounded severely.

The following Ohio names appeared in the list:

Died of wounds: E. P. Hoerr, of Portsmouth; severely wounded: Clinton Allen, Kent; M. A. Cunningham, of Cincinnati; J. J. Green, of Cleveland; James Mullen, of Cincinnati; Stanley Wioncek, of Flushing.

### YOUNG ROOSEVELT CITED FOR BRAVERY

(Associated Press Cable)

With the American Army in France, June 24.—Major Theo. Roosevelt, Jr., has been cited by the general commanding the troops to which his unit is attached for "conspicuous gallantry" in action during the operations connected with the capture and defense of Cantigny.

### STRIKES BREAK OUT IN COLOGNE

LONDON, June 24.—(Associated Press Cable)—Extensive strikes broke out Thursday in Cologne and Muelheim on the Rhine, owing to a reduction in the bread ration, 20,000 persons quitting work in munitions factories, according to a dispatch from The Hague.

A Dutch workman returning to The Hague reports that the military and police interfered, but failed to prevent a street procession of more than 9,000 at Cologne.

### BELIEVE THE WAR CAN BE ENDED THIS YEAR

Rome Asks Support of Allies In Big Drive Against United Force

(By Associated Press Dispatch.)

Washington, June 24.—Confidence at Rome that the war may be brought to a victorious close this year if the allies give the Italians a full measure of support in the offensive which has been launched against the Austrians is reflected in official wire dispatches received today from the Italian capital.

These messages say the Austrian retreat across the Piave has become a veritable rout, but that information from secret sources shows many divisions of German troops have been detached from the front in France and are being rushed to the aid of the Austrians.

### ORDER NUMBER MAY BE DRAWN AT EARLY DAY

### FAYETTE HAS \$45,000,000 TAX DUPLICATE

Personal Property Returns Reach \$10,294,565, An Increase of \$2,435,065 Over Last Year According To Figures Just Compiled by County Auditor Pine

Fayette county's tax duplicate for the year 1918 will be \$45,000,000, or an increase of \$2,435,065 over the returns for 1917, the increase being in personal property, no reappraisal of realty having been made this year.

Three of the townships—Jefferson, Paint and Union, have passed the \$1,000,000 mark in personal property values, and Wayne township is so near the million mark that next year will probably place it in the million class.

The total personal property valuation for 1917 was \$3,241,010, while this year \$10,294,565.

The increase in new structure valuations is \$231,510, indicating a healthy year in building operations. The increase in incorporated companies, banks, public utilities, etc., as estimated by Auditor Pine, exceeds \$150,000, and is included with the other personal property.

In 1917 the total tax duplicate was \$42,538,830, and this year it will pass the \$45,000,000 mark.

The gain by townships and towns is shown below, the first figures indicating the personal property valuation in 1917 and the other figures the returns for the present year:

Concord—\$334,315; \$454,810.  
Green—\$341,540; \$455,125.  
Jasper—\$579,005; \$702,510.  
Jefferson—\$32,985; \$1,301,075.  
Madison—\$503,905; \$692,460.  
Marion—\$446,355; \$598,825.  
Paint—\$831,280; \$1,052,295.  
Perry—\$382,635; \$503,540.  
Union—\$827,455; \$1,075,305.

New Holland—\$14,665; \$21,860.  
Milledgeville—\$51,880; \$46,880.  
Total 1917—\$8,241,010.  
Total 1918—\$10,294,565.

### AGED MISSIONARY LECTURES TONIGHT

Dr. Godbey, of Cincinnati, of the Holiness Bible School, delivered a forceful sermon this afternoon at the Christian Union church, and will preach again tonight at the same church.

Dr. Godbey is one of the oldest ministers of the Methodist church, 86 years of age, and has preached for 65 years. He has made four missionary trips abroad and reads the Bible in thirteen different languages, the original Greek.

A cordial invitation is extended the public to hear Dr. Godbey's lecture tonight.

### TEMPERATURE BELOW FROST LINE SATURDAY

Sunday morning the thermometers recorded 43.5 degrees, or five tenths of a degree below the frost line, which is 44 degrees.

Monday morning the thermometers recorded a temperature of forty-six degrees.

No report of any evidence of frost, however, has been made by Fayette county people, and while the temperature was below the line no damage was done to vegetation.

It is probable that Sunday morning's temperature figures mark a low June 23rd record in this vicinity. It is certain that it was the coldest June 23rd for many years.

### FINGERS CRUSHED

Miss Emily Palmer suffered most painful injuries to the fingers of her left hand, Sunday evening, when her hand was caught in an automobile door. The third finger was crushed, necessitating the attention of a physician, and it will be several weeks before she will be able to use her hand to advantage.

### HARRY HILL AND WIFE UNINJURED; ROBINSON INJURED

Word was received in this city Sunday by Mr. John Green, stating that Mr. and Mrs. Harry Hill, who are with the Hagenback-Wallace show, escaped uninjured from the wreck at Gary, Indiana, Saturday morning, and that all of their stock was safe.

In a telephone conversation with Mr. Hill, Mr. Green was informed that the show would not disband as had been stated by some of the show people soon after the wreck, and intended to give the next performance on Tuesday of this week, at the point advertised.

Robinson Injured. Chas. Robinson, son of William Robinson of this city, who was one of the ticket agents with the show, was severely bruised and suffered greatly of shock.

This information reached Mr. Robinson Sunday about the noon hour, when a message was received from Robinson's nurse at one of the hospitals where the injured were taken soon after the wreck.

It was stated that the young man would be able to leave the hospital Monday, and it is believed he will continue with the show.

Minnie Hogena, bareback rider, who formerly wintered in this city, also is reported safe.

MEMOIR Mrs. Olive Ethel Down was born March 20, 1897 and departed this life June 19, 1918 and 21 years, 2 months and 29 days. At the age of 13 years she was baptized in the Christian faith at New Holland, Ohio and continued in faith until God through death thought best to remove her from the sorrows of this life, brought upon her through sickness. She had been a constant sufferer for three years and has during that time borne well her sorrows. She is survived by her father, step-mother, one sister, two half sisters, and a host of friends. Her only sister for reasons known only to her self could not attend the funeral.

CARD OF THANKS We wish to express our heartfelt thanks for the kindness shown us by neighbors and friends in sad loss of our beloved daughter and sister. And also for the beautiful flowers and also the minister and the kind undertaker.

MR. AND MRS. JORDON AND FAMILY.

### BARN DESTROYED LOSS IS HEAVY

A large barn owned by Thomas Fahey, of Port William, Clinton county, burned to the ground Saturday night, entailing a loss of nearly \$5000. The flames had completely enveloped the barn before neighbors discovered that the barn was on fire and notified the sleeping owner. 35 head of hogs perished. Insurance was \$1500.

### "OVER THERE" AND OVER HERE

#### ITALY NOW REARMED WITH NEW ARTILLERY

(Associated Press Correspondence)

Headquarters Italian Army, June 9. General Crozier of the American ordnance department and member of the Advisory War Board has spent a week of observation along the Italian front and at the various large centers where artillery and munitions are produced.

Besides seeing General Diaz and the Duke of Aosta he visited a number of the corps and division commanders along the mountain and Piave fronts, going into the trenches and among the men, discussing the many questions of equipment and supplies and specially observing the resources in guns. His impressions on the general condition of affairs were entirely favorable.

The production of artillery in Italy has been greatly intensified within recent months and present equipment of light, field and heavy guns is probably as good or better now than it was before the reverse of last fall. The great industrial plants of Genoa and Milan have doubled and quadrupled their output in guns, trench mortars, rifles, machine guns, the production of mortars increasing seven fold during the year.

Similar extensive development has been going on in the production of mines and armor for naval construction and in the output of airplanes, ninety establishments being now equipped to turn out complete airplanes.

### FAYETTE MEN GO TO CAMP

Fourteen Fayette counts took their departure for Camp Sherman, Monday morning, and a large crowd of friends assembled at the Union Station to witness their departure and bid them God speed.

The fourteen men are: Harry Earl Freeman, Ray Parker Lynch, Luther Penwell, Joseph Beckman, Jasper Everett Crabtree, Ralph Denen, Howard Spence, Allie Dearth, Grover Cleveland Penwell, Roy G. Mallow, Walter Ray Norris, Howard Daniel Fogle, Leroy Brown, Jesse Paul Whitmer.

### NO REASON FOR TOBACCO SHORTAGE

By Associated Press Dispatch.

Washington, June 23.—Small danger of a tobacco shortage, despite tremendous amounts being shipped abroad to the army, seems to be shown in a report on the industry by the Bureau of the Census disclosing that stocks on hand at the beginning of this year amounted to 1,176,234,657 pounds, an increase of 12.6 per cent over last year.

Total production for 1917, was 1,196,451,000 pounds, of which 76 per cent was chewing, smoking, snug and export types, 19 per cent cigar types, and five per cent imported types. The leading individual type was that produced in the "Bright yellow district of Virginia, North Carolina, and South Carolina", of which there was reported 428,913,604 pounds or 36.5 per cent of the total. Burley tobacco contributed 177,206,800 pounds, or 15.1 per cent; and the tobacco classed as "Dark fired as grown in Clarksville, Hopkinsville, and Paducah districts" amounted to 117,118,386, or 10 per cent.

Leading tobacco states and the estimated amounts grown by them are as follows: Kentucky, 426,600,000 pounds; North Carolina, 204,750,000 pounds; Ohio, 99,072,000 pounds; Tennessee, \$1,810,000 pounds; Pennsylvania, 55,100,000 pounds; South Carolina, 51,120,000 pounds; Wisconsin, 45,885,000 pounds; Connecticut, 29,540,000; and Maryland, 22,549,000 pounds. The acreage estimated for these states ranged from 474,000 for Kentucky to 21,000 for Connecticut, and the production per acre, from 1,400 pounds for Connecticut and Pennsylvania to

### ZACHARY TAYLOR CAMP PROSPECTS

By Associated Press Dispatch.

Camp Zachary Taylor, Ky., June 24.—Upon the decision of the General Staff at Washington depends the question as to whether Camp Zachary Taylor, Louisville, sheltering hundreds of southern Ohio selective draft troops shall become the largest National Army cantonment in the country. The General Staff inspected the camp within the past two weeks and the camp's auxiliary, the artillery range at West Point, Ky.

These officers, including Brigadier General William J. Snow, chief of artillery in the United States, it is said, advocated centralizing a great number of artillery units for training at the camp and at West Point. Tentative plans call for the erection of barracks at the latter place sufficient to accommodate six regiments of artillery—10,000 men. These artillery are expected to be sent to the range soon. The tented camp at West Point now covers a regiment and a battalion of artillery, but enough canvas will be pitched to provide for the six regiments until barracks can be erected by fall.

Although no official announcement has been made, it is the general opinion here that the future population of the camp and range will be made up largely of artillery units. Should these plans mature, the strength of Camp Zachary Taylor and the range will total about 55,000 soldiers. The present capacity is about 45,000.

630 pounds for North Carolina. The higher yields are obtained, as a rule, in the localities producing the high-priced types used in the manufacture of cigars.

### ADMITS CRISIS

By Associated Press Dispatch.

New York, June 24.—The mass of the population in the large German cities is suffering severe want and privation, declared Deputy von Kardorff in the Prussian Diet recently, as quoted by German newspapers received here.

Demanding that the equal suffrage law be enacted, the Deputy asked how the people were to bear these privations if a political atmosphere pregnant with hatred prevails. He warned the conservative parties that they must get in closer touch with the masses.

### PRINCIPAL PROBASCO ENTERS OVER SEAS ARMY Y. M. C. A.

Principal O. K. Probasco of the High School, who volunteered the tenth of May for overseas service as Y. M. C. A. Secretary, received orders Saturday night to report in New York on July the eighth.

Mr. Probasco will be gone for a year or longer. He takes his family, Thursday, to Ada, Ohio, where they will make their home with Mrs. Probasco's parents, during his absence.

Mr. Probasco wired his resignation to Supt. McClain immediately upon receiving orders. His leaving the High School, where he has rendered such efficient service and has been exceedingly popular with both students and faculty is a matter of regret with the public as well as with the Board of Education only mitigated by the realization that such men as Prof. Probasco will render invaluable service in the Army Y. M. C. A.

Prof. Probasco has been associated with the High School for 10 years, the first four years as head of the Science department and six years as Principal.

He has been one of the prominent Odd Fellows of this city, now holding the office of Noble Grand, and his departure is also regretted by lodgesmen and a host of friends.

Mrs. Probasco's departure is also regretted by many friends, and it is hoped that the family will again make their home in this city upon Prof. Probasco's return from overseas.

## Partners of The Idler

Saturday attention was directed to the necessity for citizens generally to assist, at least to the extent of informing the officials of every case of idleness of which they have knowledge, in enforcing the work or fight order, issued by national and state authorities. Local authorities have given proof of their intention to enforce the order strictly.

There is another matter in connection with the endeavors of the officials to which attention should be directed, and about which a warning issued. There seems to be an inclination on the part of some seekers after popularity to sympathize with persons accused of violating General Crowder's order.

Instances have come to the attention of the officers where residents of the community, in the effort to secure or hold the trade of the delinquent or to avoid giving offense have, by word of mouth, whether sincere or not matters little, minimized the warning order issued by the authorities to a suspected person, assuring him that it was only a bluff and that there was no law to compel individuals to work.

That's unpatriotic and vicious. It not only results in getting the delinquent into a "peck of trouble," but instead of gaining popularity by such a course the seeker for favor will wake up to the realization that public opinion has placed the same brand upon him as it placed on the idler—by encouraging the idler he gets into the same boat with him and the people will not be slow to express their righteous indignation and visit proper punishment upon him.

It is not necessary to point out to idlers that there is an abundance of law and public demand to force them to work. Anyone who believes there is not and "stands on his rights" will learn to his sorrow that he has gotten tangled up with a buzz-saw.

The national, state and local authorities and the people are determined that there shall be no idling—there is plenty of law and intention to enforce the law which will reach out and grasp the idler and his insincere sympathizer, by the scruff of the neck, figuratively speaking, and drag the one to the bar of justice and the other to the pillory of incensed public opinion.

## America Ahead of Program

We have all been conscious of the fact that the United States has been making marvelous progress in its tremendous war work. Indeed, the true conditions have been too manifest to permit being overlooked by the most casual observers, or denied by the most deeply prejudiced.

The people were scarcely prepared, however, to assert that we were accomplishing as much as officials announced Saturday.

General March, who is in close touch with the war work and in possession of all the facts, announces that during the last week, we have sent across the sea to France and England one hundred thousand seasoned fighting men.

That is proof of mastery of the submarines and proof of the tremendous effectiveness with which our man power is being mobilized and prepared for battle.

We wonder sometimes if people really appreciate the magnitude of that achievement. One year ago, even after war was declared, if Americans had announced that they would accomplish so much the world would have been skeptical and perhaps accused us of bragging. But America didn't say what she was going to do. What America said was that she consecrated every dollar of her wealth, every ounce of energy and every drop of blood to the cause of liberty, and America has done that. How intelligently, how sincerely and how effectively she has worked is proven by General March's statement.

But that's not all General March tells us. The most startling of all is that America's work is five months ahead of the program adopted at the beginning of the war and a program so enormous in its promises that the world doubted our ability to meet it.

America has exceeded that amazing program in every line of activity and Americans are entitled to the satisfaction which comes with the knowledge of a work well done.

## Poetry For Today

### BATTLE HYMN OF NATIONS

Mine ears have heard the thunder of the coming of the Lord!  
 Mine eyes have seen the flashing of His terrible swift sword  
 And the gleaming of the waters where the vale of wrath is poured  
 Our God is marching on.

I've seen the thing that mocketh, I have seen it sway and reel,  
 Its face all white and bloody as the dead beneath its heel—  
 Oh, the light of heaven shineth on our soldiers' burnished steel!  
 God's sword is flashing on.

His voice is heard in thunders, as it was in the days of yore;  
 It speaketh forth its message in the cannon's awful roar;  
 Even as it gently murmurs in the waves along the shore,  
 His truth it thunders on.

Through smoke of conflicts raging I have traced His sentence grim—  
 Canst hold o'er earth dominion who dost not follow him?  
 Oh, be glad, my heart, triumphant, though the eyes are wet and dim,  
 For God is marching on.

Tempestuous waves grew quiet when Christ spoke on Gallilee;  
 As words to calm the storm of men He chooseth you and me.  
 As He died to save the nations, so we die to make them free,  
 While God is marching on!

## STARVATION IS AT HAND IN AUSTRIA

Food Commissioner Has Done All Possible

But Only Half a Ration of Corn Is Available

(By Associated Press Cable)

Amsterdam, June 24.—Although he has done what has been possible, there is only sufficient corn for half a bread ration in Austria, declared food minister Paul in an interview at Vienna.

The food department is attempting to make up this deficiency with other foodstuffs and in addition to 250 grammes of beef 2 pounds of horse flesh per person will be distributed weekly.

## TOTAL CASUALTIES OF ARMY ABROAD

(American Press)

Washington, June 24.—Casualties in the American army overseas thus far reported by General Pershing, including the last made public Sunday, total 8,634, as compared with 8,955 a week ago.

The casualties were divided in the war department's weekly summary as follows: Killed in action (including 291 lost at sea), 1,312; died of wounds, 432; died of disease, 1,268; died of accidents and other causes, 446; wounded in action, 4,811; missing in action, including prisoners, 365.

Casualties among the marines, with the expeditionary forces are not included in this list. No official tabulation of these casualties reported to date is available, but unofficial figures show that they total slightly more than 1,000.

With some 900,000 men now in France, the small number of deaths from disease reported is considered remarkable and shows that the American soldiers are in fine physical condition.

The latest army casualty list contains 56 names, divided as follows: Killed in action, 23; died of wounds, 16; died of airplane accident, 1; died of accidents and other causes, 1; died of disease, 2; wounded severely, 13. There was one Ohioan in the list, Jerry C. Devinney, Cincinnati, killed in action.

### Kill Officers and Desert.

Shanghai, June 24.—Cossack troops which deserted General Semenov numbered 3,000. Advances received here say the Cossacks killed their officers before going over to the Bolshevik forces.

The cyclist was thrown and painfully bruised, and his cycle damaged. One wheel on the automobile was damaged so that repairs were necessary.

## FEDERAL TRADEMARK WILL BE ADOPTED

(Associated Press Correspondence) London, June 1.—The American Chamber of Commerce in London is taking a keen interest in the bill introduced by Representative Sims in the House of Representatives, providing for a National trade-mark to be supplied to American manufacturers and producers, under government license, and to be attached to goods of American origin.

This proposal has been discussed at a meeting of the Chamber and the views expressed were against it. One reason given for this opposition was that such an official mark might be indiscriminately applied to good, bad and indifferent American products, and would operate to the detriment of efficiently produced standardized goods of quality.

The Chairman of the Trade Information Committee of the Chamber, Paul E. Derrick, says:

"The American Chamber of Commerce in London, with a membership of over 600, including representatives of most important American concerns engaged in commerce with Great Britain, considers the proposed law dangerous to American export trade interests in European markets unless the use of the proposed trade mark be absolutely restricted to a standardized quality of goods. Such restriction is believed to be impractical, and impossible of efficient application.

"Further, it is believed that American goods, selling to the general public in the British and other commercially developed European markets would in no way be benefitted by such a displayed symbol of foreign origin."

## GERMANY'S PLAN TO GET STRANGLE HOLD ON RUSSIA

(Associated Press Correspondence)

Stockholm, June 20.—Germany's aim toward control of the economic life of Russia after the war is going rapidly ahead. The plan is being worked out through an organization which has already spread to different parts of the country.

Copenhagen has been selected as headquarters for this work. Control has already been obtained in Copenhagen over a branch of a Christiania banking house by Privy Counselor Mendelsohn, the famous German banker, who is said to be the motive power in the transactions which are to be under a neutral flag. German officials believe, according to information received in Stockholm, that by this arrangement Germany's risk will be reduced and at the same time safeguarded against any consequence of the war whatever may be the outcome.

Germany's effort to control the country are to be directed at first hand against the Russian metal industry and many private enterprises, such as railways, banks and steamship companies. Possession by German interests has been secured of a great number of shares of stock of such concerns. Russian shareholders, laboring under Bolshevik threats to confiscate their property, have been only too willing in many instances to sell to the Germans at a sacrifice.

Attempts have been made also to secure control of large banks in Petrograd. Special endeavors have been made by the Germans to get hold of shares of the railway lines to the south coast toward Turkestan and a controlling interest in the system of the Troitsky Railway. This line reaches from Zlatoust, by way of Orsk, to Troitsk, touching extremely rich mineral and agricultural districts.

Another important object desired by the Germans is control of the Russian Steam Navigation and Trading company, which has its headquarters in Odessa. Germany now has physical control over vessels of this company.

## NEW NAME FOR THE "SERVANTS"

(Associated Press Correspondence)

London, June 20.—Servants in England may be known as "household orderlies," if a plan of the Women's Industrial Council works successfully. Promoters of the idea believe that the term of "servant" is objectionable to women workers and it is proposed to establish "Household Orderly Corps" in centers throughout the country.

Women are to be trained and organized for household duties and under present arrangements a wage scale of thirty shillings for a forty-eight hour week has been determined upon. From the district centers skilled "domestic orderlies" are to be supplied to households for a desired number of hours each week.

Attached to the centers will be a training school, a restaurant and sleeping quarters, in charge of a manager. A board of management, composed of representatives of employers and workers, will decide the charges to be made to employers, the hours of work, holidays and the style of uniform to be worn.

Promoters of the plan say it promises a solution of the household workers' problem and suggests a "career" for thousands of girls who will lay down war work with the coming of peace, and who would find no attractions in domestic service under present conditions.

**Touched Live Wires.**  
Canton, O., June 24.—Steve Carlo, 23, was instantly killed when 250 volts of electricity passed through his body as he accidentally came in contact with electric wires while repairing a grate in a fire box at the Canton Drop Forge company's plant.

**Fire Destroys Plant.**  
Martins Ferry, O., June 24.—One hundred and twenty-five workers were made idle when the Superior glass plant burned with \$75,000 estimated loss and \$18,000 insurance. Authorities blame crossed wires. The plant was working on a French government contract.

**Red Cross Announcement.**  
Cleveland, June 24.—In accordance with a ruling made last week by the war industries board, Acting Manager, Frank E. Abbott of the Lake division, American Red Cross, announced that Red Cross chapters must hereafter stop buying wool in the open market and must make their requisitions for yarn at division headquarters.

**Phone Rates Increased.**  
Cleveland, June 24.—Effective July 1 the Cleveland Telephone company will raise rates as a result of a decision of the state supreme court, which held that the city council has no authority under the home rule charter to fix telephone rates. City Law Director Fitzgerald said he would carry the fight no further.

**Decrease in Liquor Licenses.**  
Columbus, June 24.—The onward sweep of prohibition and the fact that profits are growing smaller were assigned by the state liquor license board as the reason for about 300 saloonkeepers going out of business during the last year. New liquor licenses issued in May numbered 5,729, against more than 6,000 a year ago.

## WANT INVESTMENT OF IDLE FUNDS

(Associated Press Correspondence)

London, May 24.—An effort is being made, by negotiation, to utilize some of the huge deposits now accumulated at various city banks, for investment in National War Bonds. The Chancellor of the Exchequer is consulting with bankers to arrive at some understanding regarding a discontinuance of the high rates allowed on deposits and the diversion of some of the funds into National War Bonds.

### PLACING BLAME IN CIRCUS WRECK

(American Press)

Gary, Ind., June 24.—The known death list in the collision between a Michigan Central equipment train and a Hagenbeck-Wallace circus train has been increased to 85. In hospitals in Gary and Hammond are 129 injured. The collision occurred five miles west of Gary.

According to reports to local authorities, the circus train, which carried four sleepers, five stock cars, 15 grain cars and a caboose, pulled part way into a switch and stalled there on account of a hot box. The flagman went back on the main track and set fuses as a warning of danger. The circus train was in this position when the equipment train plowed into the sleepers, reducing them to a pile of tangled steel and timbers. Fire engendered by the gas lighting system of the circus train broke out almost immediately, and when rescuers reached the scene the entire wreckage was in flames.

Clowns, bareback riders, trapeze performers and acrobats, many of them veterans in the circus world, perished in the first great crash. Other victims were suffocated and burned. Most of those killed were crushed to death in their sleep. The crash came so suddenly there was no chance to escape.

Attempts of the Gary fire department to curb the flames and make

possible quick access to the imprisoned victims were unsuccessful because of lack of water supply in that outlying district. Survivors struggled about the wreck, screaming for relatives or friends.

An inquest has been opened at Hammond and Gustave Klaus, fireman of the troop train of empty Pullmans, has been ordered to Hammond to testify. "We will have the engineer, Alonzo K. Sargent, present when we are ready for him," was all Deputy Coroner Greene of Lake county would say. Sargent is being held at Kalamazoo, Mich. Neither man was injured.

Ohioans killed in the wreck were: Mrs. Joseph Coyle and sons, Joseph, Jr., 11, and Charles, 4, of Cincinnati; Leroy Jessup, Toledo, and James H. Henry, Marion.

### MOTHER RECEIVES \$10,000 INSURANCE

Mrs. James M. Thomas, R. D. 5, this city, whose son, Corporal Earl Thomas, of M Company, 166th Infantry, recently died of wounds received in action on the battlefield of nations, has received notice from the War Department that she is the beneficiary under the \$10,000 government insurance carried by Corporal Thomas, and blanks were enclosed for her to fill out in order to claim the insurance.

The insurance will be paid at the rate of \$55.50 per month until the entire \$10,000 is paid.

### PAY IN STAMPS

(American Press)

New York, June 24.—Wholesale and retail merchants and other business men here were apprised of a plan whereby the vast commercial and credit system of the country may be utilized to sell \$1,000,000,000 worth of war savings stamps before the end of the year. The arrangement, announced by the war savings committee, provides for the giving of discounts, payable in thrift stamps, for the prompt settlement of bills. The local committee, by this method, is hopeful of obtaining \$2,000,000 in New York city alone before national war savings day, June 28. The thrift stamp discount plan, it is said, which has already been tested by a number of large commercial houses here, obviates both work and expense in making collections.

### MAY RAISE WHEAT PRICE

(American Press)

Washington, June 24.—With the approval of Food Administrator Hoover, blanket authority to increase the price of wheat at primary and other markets above the \$2.20 a bushel minimum price guaranteed by presidential proclamation last Feb. 21 is given the food administration grain corporation in New York in an executive order of the president.

To carry out the purposes of the order, the corporation is authorized to increase its capital stock from \$50,000,000 to \$150,000,000, in shares of a par value of \$100 each. All the stock will be owned by the government and will be purchased by the food administration from time to time as the necessity arises to maintain the present \$2.20 price or any increases authorized.

While no explanation of the order was given either at the food administration or the White House, two considerations were believed to have influenced the president's decision to permit the grain corporation to pay higher prices for wheat. The first was the increased freight rates which will become effective tomorrow. Growers must bear this increase and without an advance in the price of wheat their profits would be materially reduced. The second was believed to be the situation resulting from the deadlock in congress over the senate amendment to the annual agricultural appropriation bill increasing the minimum guaranteed price for wheat to \$2.50 a bushel. The house has refused to accept the amendment and the senate is to vote on it again this week. In some quarters it was believed that the president's action would be a factor in influencing the senate to recede from the amendment.

### ANOTHER DEMON ADDED TO ENTRIES

The entry list for the Liberty Handicap, to be run at the Cincinnati Speedway on July 4th, was augmented last night by the addition of Tommy Milton, the New England automobile racing champion. Milton last year won the Providence Derby at 100 miles, defeating among others Louis Chevrolet, speedway champion of 1917, who will start from scratch in the \$30,000 classic Independence Day.

Milton is one of the best of the young crop of drivers and is looked upon as the "dark horse" in the coming big race. He had entered two Duesenberg cars, one of which he will drive himself. Milton is not likely to receive much of a handicap from Chevrolet and it would occasion little surprise if he were ranked with such famous pilots as Ralph De Palma, Dario Resta, Barney Oldfield, and Ira Vail.

## SEEKING TEACHERS IN OHIO FOR WORK IN ISLAND SCHOOLS

Carey Hickie, Assistant Commissioner of Education of Porto Rican Public Schools, Reaches Home After Narrow Escape From Submarines--Wants Teachers.

Prof. Carey Hickie, Assistant Commissioner of Education in Porto Rico, and editor-in-chief of "The Porto Rico School Review" has arrived at the home of his father, Mr. Martin Hickie, in Clarksburg after a narrow escape from German submarines while making the trip from Porto Rico to an Atlantic Port, and upon his return to the island some two months hence, hopes to take with him a number of teachers for work in the Porto Rican high schools.

Prof. Hickie has been in Porto Rico for a number of years and now holds next to the highest position in the schools of the island, where 130,000 pupils are enrolled.

Professor Hickie states that the course of study in the Porto Rican schools is just as up-to-the-minute as that in this country, with particular

attention given to domestic science and the more practical branches of study.

During the last few years wonderful progress has been made in the schools of the island, and modern buildings, with complete equipment have sprung up all over the island, so that every educational advantage is offered the citizens of the island, which has a population of about 1,200,000 persons, virtually all of whom speak the Spanish language. The English language is being taught in the schools as well as Spanish.

Professor Hickie states that war activities on the island are very similar to those in this country, and that 2500 National Guardsmen have been in the service for some time, and 14,000 young men are under training on the island, and the cantonment on the island will probably be increased to handle 40,000 troops.

Just a few days before he left the island the German aliens were rounded up and are now safely interned for the period of the war.

While in Ohio Professor Hickie will endeavor to obtain a number of high school teachers for work on the island, the schools being short of high school teachers at the present time.

On his way over the boat upon which he took passage did not travel the usual route, and the trip required eight days instead of four. Two vessels in the same zone were attacked and sunk by the German submarines, and every precaution was taken to prevent disaster to the boat upon which he was a passenger. During the entire eight days everyone was in readiness at all times to take to the boats if attacked. All slept fully dressed, and all were especially trained to reach the life boats in the shortest possible time if attacked.

Professor Hickie is in love with the climate of Porto Rico, where there is little variation in the temperature, and where, during the bitter cold of last winter when the mercury hovering around 20 degrees below zero, the thermometers on the island showed about 80 degrees above the zero mark.

## PLANES GO HOME AFTER RADIO WORK

Two airplanes, which spent Friday and Saturday at work over the artillery range and Camp Sherman, returned to the Wright field Saturday evening, passing over this city at four o'clock.

One of the planes was so high that it passed through the clouds and part of the time was above them.

While the signal work was under way at Camp Sherman, with Lieut. H. L. Hill, of Atlanta in charge of a machine, and Capt. Willis H. Hale, aide to Major General Harry C. Hale, the engine of the plane went dead at a height of 3,000 ft and it was necessary to volplane to the landing field, which was done without a mishap.

### COWS THAT PAY

J. C. Sweyer of West Amanda, kept account of the production of four of his cows during the month of May. 270.4 pounds of cream yielded 142.7 pounds of butter fat, which sold for \$59.23. Total production of milk during the month, 3,780 pounds, an average of 125 pounds per day. Value of the separated milk at the low figure of 2c per quart, \$36. Eight pounds of butter consumed at home, \$3.20. Cream used at home at 5c per day, \$15.00. Total value produced by the four cows during the month, \$99.93.

Had Mr. Sweyer sold the milk in Amanda at present prices, he would have realized \$154.80.—Amanda Press.

## POPULAR WITH CHICAGO

FRED MERKLE

Fred Merkle, former first baseman of the Giants and now with the Cubs, has become as popular in the Windy City as he was in New York. Fred is hitting the ball hard and often and is playing a great game at first base. Fans of Chicago say that his come-back is well high as sensational as that which Larry Doyle sprang with the Giants before his illness interfered.

## NERVOUS RUN-DOWN WOMAN

Tells How Vinol Creates Strength.

Duked, Tenn. — "I live on a farm and keep house for six in my family. I got into a nervous run-down condition so it seemed as though I would die. A friend advised me to try Vinol. I have been greatly improved by its use and am better and stronger in every way."—Mrs. H. H. Goodwin.

The reason Vinol was so successful in Mrs. Goodwin's case is because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weak, run-down system and create strength. Blackmer & Tanquary and druggists everywhere. Adv.
